5) <input type="checkbox"/> Notice of Informal Patent Application (PTO-152)		
6) <input type="checkbox"/> Other: _____.		

## DETAILED ACTION

### *Drawings*

1. The drawings are objected to under 37 CFR 1.83(a). The drawings must show every feature of the invention specified in the claims. Therefore, the two or more sidewalls must be shown or the feature(s) canceled from the claim(s). No new matter should be entered.

A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

### *Claim Rejections - 35 USC § 102*

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 33-35 and 36-38 are rejected under 35 U.S.C. 102(b) as being anticipated by Holmberg Patent Number 1,412,784.

Holmberg '784 teaches all the limitations of the above claims including a modular vault with a seamless (page 1, column 2, lines 75-81) housing body (5) with front, rear, side, roof and floor walls forming an unitarily single piece, having a door (6) in an opening in the front wall connected to a door frame of hinges (see figure), more than two side walls (4), and the vault is fire resistant and burglary proof.

***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.

5. Claims 33-34 and 36-37 are rejected under 35 U.S.C. 103(a) as being unpatentable over Holmberg Patent Number 1,412,784 in view of Speer Patent Number 5,493,817.

Holmberg '784 teaches all the limitations of the above claims except the use of hooks. Speer '817 teaches the use of hooks to hoist an enclosed container. It would have been obvious for one skilled in the art at the time the invention was made to modify the vault as taught by Holmberg '784 to provide integrated hooks to hoist the vault into a building onto office floors above the basement as taught by Speer '817 since providing integrated hooks require only routine skill in the art.

***Terminal Disclaimer***

6. The terminal disclaimer filed on December 24, 2002 disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent Number 6,003,271 has been reviewed and is accepted. The terminal disclaimer has been recorded.

7. The terminal disclaimer filed on December 24, 2002, overcomes the double patent rejection of claims 33-35.

***Response to Arguments***

8. Applicant's arguments with respect to claims 33-38 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dennis L Dorsey whose telephone number is 703-306-9137. The examiner can normally be reached on Monday-Friday 9:30am-6:00pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lanna Mai can be reached on 703-308-2486. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9326 for regular communications and 703-872-9327 for After Final communications.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1020.
